XPG PRIME ARGB LED Strip

EPIC RADIANCE

XPG PRIME ARGB LED STRIP

XPG PRIME ARGB LED Strip offers stunning PC illumination via included programmable ARGB controller. Compatible with most major motherboard software, XPG PRIME ARGB LED Strip accessories your PC build with more flare.

PRESET ARGB LIGHTING

Enclosed ARGB Lighting controller is compact and programed with 12 preset ARGB lighting effects.

COMPATIBILITY

XPG PRIME ARGB LED Strip is compatible with various RGB software from major motherboard manufacturers. Lighting can be synchronized with your motherboard's ARGB effects.

MINIMAL INSTALLATION

Built-in 11 Black Sintered NdFeB magnets for fast, firm attachment to metal surfaces. Also comes with industrial 3M adhesive tape.

FLEXIBLE EXPANDABILITY

Can be easily daisy-chained enabling users to extend and lengthen up to 4 strips.

Features

- Preset ARGB Lighting Effects
- High Motherboard Synchronizing Compatibility
- Minimal Installation with Magnets or 3M Adhesive Tape
- Flexible Expandability Daisy-Chained up to 4 Strips

Specifications

- LED Type ·· ARGB 5050 LED(SK6812)
- LED Quantity ······································ 30 pcs
- Voltage ·· 5V
- Power Consumption ························ 9W
- Beam Angel ·· 120°
- Operating Temperature ················ -40°C ~ 85°C
- Magnet ·· Black Sintered NdFeB Permanent Magnets
- Magnet per Strip ···························· 11 pcs
- LED Strip Length ···························· 600mm (23.6")
- LED Strip Thickness ······················ 2.5mm (0.01")
- LED Strip Width ······························ 10mm (0.4")
- Color Rendering Index ·················· 256 level gray scale adjustable
- Flex PCB Quality ···························· 1 Oz copper
- Lumen ·· Red: 400~700mcd, Green: 1000~1500mcd, Blue: 200~400mcd
- Adhesive ·· Adhesive 3M 9448A
- Warranty ·· Warranty 2 Years
