

XPG INFAREX M20 Gaming Mouse

VICTORY AT HAND

XPG INFAREX M20 Gaming Mouse

Add a new dimension to your gaming experiences with the XPG INFAREX K10 gaming keyboard. With nine RGB lighting modes to choose from, you can switch up the effects to suit the game you're playing or whatever mood you're in.

Durable OMRON Switches

Utilizing OMRON switches, the INFAREX M20 provides you with the accuracy to hit your targets and perform tasks effectively. It's tested to 20 million clicks, giving you a durable mouse that will last you a long time.

Adjustable DPI

With a 5,000 DPI optical sensor, the INFAREX M20 offers amazing precision to put you a step ahead of your opponents. A five-segment DPI adjustment button lets you change the speed of the cursor for optimal control in different situations.

RGB Lighting Effects

The INFAREX M20 comes with a full range of RGB lighting effects that will help put you in the right mindset before or during an intense battle.

Ergonomic Design for Comfort

INFAREX M20's ergonomic design allows it to fit comfortably in your hands for a natural and relaxed hand position. All motions can be done quickly and precisely.
